

AL-KO Customer Center in Sweden up and running

AL-KO VT has expanded its service center in Skene near Gothenburg, Sweden, into a fully equipped AL-KO VT customer center that now serves the entire Scandinavian region. The opening has extended the European network of customer centers up to eight sites.

The new customer center is located on 980 square meters, 50 kilometers south of Gothenburg. It offers a customer reception area and a showroom as well as a large and fully equipped workshop. The customer center is selling and fitting the products of the group brands AL-KO, E&P, CBE and SAWIKO, including towbars, bicycle and motorbike carriers, levelling systems, air suspensions, manoeuvring aids, anti-swaying systems and solar cells. Caravan payload-increase and the classic service and repair work on chassis and braking systems will also be performed.

“The new and updated customer center in Skene near Gothenburg is another step towards even greater customer proximity and is a first-class addition to AL-KO’s close-knit service network in Europe,” says Guido Kovermann, Senior Vice President After sales and Customer Centers AL-KO Vehicle Technology Group.

“We are working intensively on broadening our product offering and our geographical coverage. The new [customer center](#) allows us to widen our service for the whole of Scandinavia. We are pushing our sales efforts especially in the area of levelling systems and will from now on submit our customers a comprehensive portfolio of products and services from a single source with one-stop shopping for LevelM, LevelC and HY4,” says Fredrik Rhodin, Managing Director of AL-KO Nordic.
